COMUNICATO STAMPA

ASSEGNATA ALLA FOSTER WHEELER LA PROGETTAZIONE DI PROCESSO PER UN IMPIANTO DI TRATTAMENTO ACQUE IN ARABIA SAUDITA

Foster Wheeler AG (Nasdaq: FWLT) ha annunciato oggi che il Global Engineering and Construction Group ha acquisito dalla **SETE Energy Saudia for Industrial Projects Ltd. (SETE Energy)** un contratto per la progettazione di processo relativa all'espansione di un impianto di trattamento acque industriali in Arabia Saudita.

L'impianto è destinato alla Power & Water Utility Company for Jubail & Yanbu (MARAFIQ). MARAFIQ è l'autorità responsabile della gestione e distribuzione dei servizi (energia elettrica, acqua) agli insediamenti industriali sauditi di Jubail e Yanbu.

SETE Energy, società del Gruppo greco Latsis che si occupa di realizzazione di impianti di trattamento acque, eseguirà la progettazione, l'acquisto dei materiali e la costruzione del progetto.

In questo ambito, la Foster Wheeler eseguirà la progettazione di processo e fornirà assistenza tecnica durante le fasi di collaudo e avviamento.

A seguito di questa espansione, che si prevede sia completata alla fine del 2011, l'impianto tratterà 55.000 metri cubi di acque reflue al giorno.

“Ancora una volta la collaborazione tra SETE Energy e Foster Wheeler nel regno saudita si è dimostrata vincente ed è nostro desiderio consolidare ulteriormente le sinergie che abbiamo costruito sino ad ora,” ha detto George Antonopoulos, Chief Executive Officer, SETE Energy.

La Foster Wheeler AG è una società che opera a livello mondiale attraverso i due gruppi **Global Engineering and Construction Group** e **Global Power Group**. La società impiega più di 14.000 persone. Il Global Engineering and Construction Group progetta e costruisce impianti ad elevato contenuto tecnologico per i settori dell'oil & gas, LNG e gas-to-liquids, raffinazione, chimico, petrolchimico, dell'energia, farmaceutico, biotecnologico e ambientale. Il Global Power Group è leader mondiale nella tecnologia della combustione e generazione di vapore e progetta e costruisce caldaie a letto fluido circolante specifiche per combustibili solidi (carbone, coke di petrolio, biomasse, rifiuti).

La sede legale della Foster Wheeler è a Zug, Svizzera e la sede operativa è a Clinton, nel New Jersey, USA. Per ulteriori informazioni sulla **Foster Wheeler**, visitate il nostro sito www.fwc.com.

Safe Harbor Statement

Foster Wheeler AG news releases may contain forward-looking statements that are based on management's assumptions, expectations and projections about the Company and the various industries within which the Company operates. These include statements regarding the Company's expectations about revenues (including as expressed by its backlog), its liquidity, the outcome of litigation and legal proceedings and recoveries from customers for claims and the costs of current and future asbestos claims and the amount and timing of related insurance recoveries. Such forward-looking statements by their nature involve a degree of risk and uncertainty. The Company cautions that a variety of factors, including but not limited to the factors described in the Company's most recent Annual Report on Form 10-K, which was filed with the U.S. Securities and Exchange Commission and the following, could cause the Company's business conditions and results to differ materially from what is contained in forward-looking statements: benefits, effects or results of the Company's redomestication, further deterioration in the economic conditions in the United States and other major international economies, changes in investment by the oil and gas, oil refining, chemical/petrochemical and power industries, changes in the financial condition of its customers, changes in regulatory environments, changes in project design or schedules, contract cancellations, changes in estimates made by the Company of costs to complete projects, changes in trade, monetary and fiscal policies worldwide, compliance with laws and regulations relating to its global operations, currency fluctuations, war and/or terrorist attacks on facilities either owned by the Company or where equipment or services are or may be provided by the Company, interruptions to shipping lanes or other methods of transit, outcomes of pending and future litigation, including litigation regarding the Company's liability for damages and insurance coverage for asbestos exposure, protection and validity of its patents and other intellectual property rights, increasing competition by non-U.S. and U.S. domestic companies, compliance with its debt covenants, recoverability of claims against its customers and others by the Company and claims by third parties against the Company, and changes in estimates used in its critical accounting policies. Other factors and assumptions not identified above were also involved in the formation of these forward-looking statements and the failure of such other assumptions to be realized, as well as other factors, may also cause actual results to differ materially from those projected. Most of these factors are difficult to predict accurately and are generally beyond the Company's control. You should consider the areas of risk described above in connection with any forward-looking statements that may be made by the Company. The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any additional disclosures the Company makes in proxy statements, quarterly reports on Form 10-Q, annual reports on Form 10-K and current reports on Form 8-K filed with the Securities and Exchange Commission.
