Practical Use of the FIDIC 1999 Editions

Providing Essential Contractual Know-How for Working on Future International Projects

OVERVIEW

The 1999 FIDIC Conditions of Contract are being increasingly used by the international Construction Industry throughout the World. In Europe they are used by the European Commission for all their projects throughout Central and Eastern Europe. The Multi-Lateral Development Banks, including the World Bank, Islamic Bank for Development and the Asian Development Bank have adopted the 1999 FIDIC Conditions of Contract for Construction with modifications. These are covered in this course.

This practical training course, provided by professional engineers with extensive international experience, explains and illustrates the use of the FIDIC Conditions of Contract for Construction (the "Construction Contract") and the FIDIC Conditions of Contract for Plant and Design-Build (the "Design-Build Contract"). The course is designed to help the participants have confidence in working with these documents whether representing Employers, Consultants or Contractors

SEMINAR TUTORS:

The tutors are provided by European Construction Ventures, ECV, in association with FIDIC. ECV specialises in training and management consultancy to the international construction and infrastructure industries. The ECV tutors have provided over 150 training courses throughout the world in the last 3 years on the use of FIDIC documents

Anthony Glover
Director, ECV

Simon R. Worley B.Eng (Hons) C. Eng, MICE, MCIWEM
Consultant, ECV

COURSE MATERIALS

All delegates will be provided the following materials, in English:

- FIDIC Conditions of Contract for Construction 1999 Edition
- FIDIC Conditions of Contract for Plant & Design – Build, 1999 Edition
- Schedule of overheads used during the seminar – to be used as "Work Book"
- Work Exercises
- Notes on changes incorporated in the MDBs' Harmonised Construction Contract

WHO SHOULD ATTEND?

The training course provides the necessary knowledge for professionals from Government Ministries and Agencies, Private Sector Employers, Consulting Engineers, Contractors, Quantity Surveyors, Architects, Legal Advisers and all involved with the implementation and management of large Works Contracts. It is particularly important to those involved in preparing or managing infrastructure projects financed under MDBs' Funds, the EU Cohesion and Structural Funds, as all their Works contracts use the FIDIC Conditions of Contract.

Ensure that your staff is prepared for working with these important documents that are becoming the international contractual language of the 21st Century

Programme

	<u>Day 1: 09.00 – 17.00</u>	<u>Day 2: 09.00 – 17.00</u>
